

FIVE OF THE CONDOR (THE)

A South American rebel leader in exile in Miami is given the last chance to overthrow his successor, a brutal dictator, by a multi-national mining group out to exploit his countries' mineral resources. But the leader's son is held hostage by the dictator, and will be executed at first sign of attack. The only way out seems to be recruiting a team of deadly fighters, all experts in guerrilla warfare, to free the boy and eliminate the resistance.
